Re: Review of Large Mining Operation Notice of Intention,
Ash Grove Cement Company, County Canyon Mine, M/023/024
Juab County, Utah

Dear Mr. Hedburg:

In response to your letter, dated February 19, 1993, the following comments are appropriate:

110.5 Revegetation Planting Program and Topsoil Redistribution

Ash Grove will include Blue Bunch Wheatgrass, Indian Ricegrass and Cliffrose at 2 lbs./acre each in reclamation mix.

R647-4-112 Variance

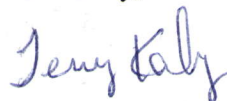

Ash Grove acknowledges the division's grant of variance as outlined in your letter.

R647-4-113 Surety

There will be no need for backfill materials to be hauled in for reclamation. The back walls will be benched and shot down to a 3:1 slope. The surety requirements listed are acceptable to Ash Grove and we are prepared to provide a surety bond for your requirements which are in excess of the \$21,600 bond we have with the Bureau of Land Management.

If I can be of further help, please let me know.

Sincerely,

Terry Kerby
Plant Engineer
